The floor plan in details

- The main entrance is positioned on the ground floor directly in front of the registration area.
- The main plenary session will take place on the first floor, directly above the exhibition hall.
- Two additional session rooms are planned:
  - One on the ground floor (left side), very close to stand 8
  - One on the second floor (right side, above the Marble Hall)
- At the end of the atrium on the ground floor, a training area will host workshops and other delegate-focused activities.
- High tables will be placed throughout the exhibition hall to encourage delegates to remain in the area during breaks and lunch. Additional high tables, primarily for lunch, will also be available in the Marble Hall on the right-hand side of the ground floor.
